

For the kind attention of Managing director and HR Team,

Please find my CV attached in application for the advertised vacancy.

My partner and I have recently moved back from Dubai after 7 years and are now based in Jesmond, Newcastle. We first encountered Story Homes at Oakland Park, Morpeth as we are looking to buy and settle back as quickly as possible. We both agreed that the Story product is hugely impressive from all aspects including design, architecture, finish and the presentation of the show homes, not to mention the very helpful and approachable Anita.

I did initially enquire about vacancies with Story Homes at this point as, following my time in Dubai and working for premium home builders such as Berkeley Group, I saw this as the perfect environment to join and help grow the presence and success of.

With this in mind, please consider my CV in application for the advertised roles with a view to meeting to discuss how best we can move forward together and what I can offer to ensure the further growth and success of the business.

Best Regards,

Simon Walsh
