Profile

Architectural Technician with an honest and open approach to both professional & personal performance. I have excellent design and technical detailing skills, able to produce high quality architectural drawing packages whilst working to tight project programmes.

I am extremely self-driven and enthusiastic with excellent team working and communication skills. I demonstrate a great eye for detail and have confidence in my own ability. I am an innovative and adaptable individual with a pro-active approach to changes in the industry with the ability to generate and promote effective new solutions to eradicate design constraints.

My passion is simplistic well-designed buildings that provide the inhabitant with all their needs.

Education

2012 – 2014 **Northumbria University**, City Campus, Newcastle upon Tyne.
BSc (Hons) Architectural Technology

Second Class Upper Division (2.1)

Dissertation Published. My final year dissertation was published and presented at the Euro-ELECS 2015 - Latin-American and European Conference on Sustainable Buildings and Communities, held in Guimarães, Portugal, 21st - 23rd of July 2015. The paper was titled "*Impact Resistance of Concrete – Using Slit Rubber from Tyres*"

2010 – 2012 **Northumbria University**, City Campus, Newcastle upon Tyne.
Foundation Degree Architectural Technology.

2008 - 2010 **Newcastle College**, John Marley Centre, Muscott Grove,
Newcastle upon Tyne. NE15 6TT
Btec National Diploma in Construction

2003 – 2008 **Greencroft School**, Annfield Plain, Stanley, Co. Durham.
11 GCSEs: English Language, English Literature, Mathematics, Science, Art & Design,
Resistant materials, Chemistry, Physics, Biology, Business Studies, P.E.

Professional Profile

Feb 2016 – Present

Bellway plc (Group)

Head Office

Seaton Burn House
Dudley Lane
Seaton Burn
Newcastle upon Tyne
Tyne and Wear
NE13 6BE

Position held: Architectural Technician

I currently uphold a position with Bellway Group as an Architectural Technician at their head office in Seaton Burn. I was brought into the company as part of the newly formed Technical Department to design, maintain and oversee the new Group House Type Project.

In this role I work directly below the Group Technical Director and Group Head of design to produce a large range of house types suitable for all divisions. On a daily basis I liaise with our commercial and technical team members to ensure our house types are as cost effective as possible without compromising on quality or design.

My daily duties consist of producing large standard working drawing packages, ensuring that all relevant supplier information is correct and working closely with the NHBC in order to obtain type approvals and overcoming inevitable site issues.

I am extremely proficient in AutoCAD, Microsoft Office, Adobe Photoshop and Bellway's desire to take the large step into BIM has recently seen me undertake a 3-day Autodesk Revit course, following my 2 years using it at Northumbria University. Since early 2017 I have been tasked with producing our group house type range in Autodesk Revit ready for use in late 2018.

June 2014 – Feb 2016

Hodgson Architectural Services

Office 99 Derwentside Business Centre,
Consett Business Park, Consett.

Position held: Architectural Technician

Upon completion of my degree I immediately accepted a position with Hodgson Architectural Services, where I gained extensive experience working on various project types and sizes from initial inception through to completion.

My duties included carrying out and drawing up measured building and site surveys for various schemes. Preparing and submitting planning applications and the production of working drawing packages, specification writing and other supporting documents.
