Storey Homes

To Whom it May Concern,

Re: Trainee Assistant Site Manager

I wish to express my enthusiasm for the Trainee Assistant Site Manager role for Story Homes. With a strong background in site management and project coordination within telecoms, I am passionate about transitioning into the construction industry, expanding on my skills and building a long-term career in this dynamic field.

My previous roles as Site Manager at both Network Plus and Coreline Fibre has given me extensive experience in coordinating large-scale projects. Within both roles I was responsible for supervising and overseeing fibre network installation and maintenance sites from initial planning to completion of projects, coordinating multiple teams and ensuring compliance with health and safety regulations. My hands-on experience in site surveying, planning and resolving on-site issues has equipped me with the skills necessary to monitor and manage build plans efficiently. Additionally, my ability to communicate effectively with contractors, colleagues, and customers aligns perfectly with the key responsibilities outlined in the job description.

My commitment to maintaining high standards of quality, regulatory compliance and customer satisfaction is demonstrated through my successful track record in previous roles. For example, at Coreline Fibre, I managed multiple teams of contractors and navigated complex logistical challenges to ensure project success. My proactive approach to problem-solving and my ability to build strong relationships at all levels have been crucial to my professional success and would be a valuable asset to the Trainee Assistant Site Manager role.

The opportunity to learn and develop within Story Homes is particularly appealing to me. I am eager to gain an insight into all of the day-to-day site activities and take a proactive approach to learning and development across all aspects of the role. My previous experience in high-pressure environments, such as my tenure in the British Armed Forces, has strengthened my ability to thrive under demanding conditions and quickly adapt to new challenges. I have already recently undertaken a Site Management Safety Training Scheme course and achieved a Site Safety Plus certificate on my own accord, which not only equips me with a excellent level of understanding of health, safety, welfare and environmental

issues on construction sites, but also demonstrates my serious commitment to starting a career in the construction industry and upholding the highest safety standards on-site.

In summary, my extensive experience in site management, combined with my proactive and adaptable nature, make me a strong candidate for the Trainee Assistant Site Manager position at Story Homes. My passion to succeed, strong work ethic and desire to achieve high quality work aligns with the values of Story Homes, and I am genuinely excited about the prospect of contributing to your team and further developing my skills within an industry leading organisation.

Thank you for considering my application, I look forward to hearing from you and further discussing how my background aligns with the requirements of the role.

Yours faithfully,

Lewis Raistrick
