PROFESSIONAL SUMMARY

I am a very motivated and passionate person with a drive to stand out. I can easily adapt to change and love to take on new challenges and problem solving with a positive outlook. I have experience working as both part of a cohesive team as well as working by myself and I thrive in both situations. I excel when working in a fast-paced environment and I can manage my time efficiently, understanding the importance of meeting deadlines by prioritising my workload. My empathetic nature drives my need for delivering excellent customer service and I have a proven track record of this within my working history.

WORK HISTORY

Bricklayer

August 2023 - Present

Temporary | AGENCY | Leeds

- Cutting bricks to size using hammers, chisels or power tools.
- Laying the bricks in horizontal layers (courses).
- Measuring out the work area and laying the first courses according to the architects' plans.
- Mixing mortar, either by hand or with a mixing machine.
- Spreading mortar evenly to fix the bricks into place.
- Ensuring the line of the wall is totally straight and level (e.g. using a spirit level or plumb line).
- Making access holes in the walls to allow electricians, plumbers and other workers to bring water, electricity and commodities into the building.
