Profile

Well motivated, experienced and enthusiastic construction professional with extensive knowledge of Building Design and Construction. Flexible and reliable with excellent communication, administration and organisational skills, working in a team and individually. Experienced at multiple levels overseeing varying teams over multiple projects simultaneously.

Able to work with, support and lead teams in delivering projects on time and within budget.

Work consistently to overcome challenges on each project and use the experiences to make myself more efficient when confronted with similar circumstances in the future.

I like to consider myself to be a confident and results orientated individual, with the ability to prioritise a busy workload against tight deadlines. On every project I work on I set out to provide the best value to my company whilst providing the best end product for our client. Fully computer literate with extensive experience across a number of platforms, including AutoCAD, Autodesk Inventor and Revit BIM, including family creation.

Conscientious and hard working, producing a consistently high standard of work.

Hungate Phase 1, York

Experience

WPL UK Ltd (May 2013 - Present)

Position - Design Manager

In my current role I am responsible for the design on all projects within the contracts dept. Checking designs before they leave the company, ensuring they have been co-ordinated with the latest design information and inline with supplied specifications, subcontract orders and company standards for our products.

My Duties include, but are not limited to

- Design coordination
- Team management
- BIM oversight and implementation
- Negotiation
- Site Oversight & Management of Operatives
- Quality control
- 3d Visualization modeling and sample production.

- Chairing and attending meetings
- Research and development of new products and services
- Procurement
- Specific project detailed design drawing work
- Project budgeting and value engineering
- Site surveys
- Fixing design and specification

WPL UK Ltd (September 2010 May 2013)

Main Duties –

- Design coordination
- Site Oversight & Management of Operatives
- Quality control
- 3d Visualization modeling and sample production
- Attending meetings
- Research and development of new products and services
- Procurement
- Specific project detailed design drawing work
- Project budgeting and value engineering
- Site surveys
- Fixing design and specification

KIA Motordealership, Brentford

Trafford Town Hall, Manchester

Maple Sunscreening Ltd (September 2009 August 2010)

Position - Design Engineer

I was mainly responsible for taking a number of contracts and producing project specific detailed design drawings Main Duties –

- Design coordination
- 3d Visualization modeling and sample production
- Attending meetings
- Procurement
- Specific project detailed design drawing work
- Project budgeting and value engineering
- Site surveys
- Fixing design and specification

Blackpool Victoria Hospital MSCP, Blackpool

Seven Architecture (November 2006 October 2008)

Architectural Technologist

Whilst there I worked on a number of large residential projects for experienced house builders throughout planning, design development and construction phases.

Provided feasibility assessments and master planning for a number of projects, including large office schemes.

I have also worked on a number of higher education projects.

For a number of projects I have been required to produce 3d concept models in support of design bids and to convey early design ideas to the client.

My general duties included producing technically sound coordinated planning, building regulation and construction drawings. Along with associated scheduling and setting out information.

Also liaised with specialized manufacturers, subcontractors and other members of the design team to ensure all drawings were accurate for construction. Answered site queries and attended meetings with the client and on site with the contractors and design team.

Vue Cinema, Cramlington

Cassidy & Ashton Architects (April 2006 November 2006)

Architectural Technologist
