Dear Chris,

**RE:     Engineer  
          North West**

Please find enclosed my CV for consideration for the above post.

My current employment is with Complete Construction (2019) Ltd where I am employed as a Senior Design Manager. This is mainly working on live jobs, but I have previously worked in preconstruction teams developing schemes from viability to planning through to delivery and handover.

My current salary is £65k.

I like the daily challenge of being working in a technical team and the demand for practical problem solving. My background is in residential including houses and apartments with civils being my speciality.

As you will note from my address the commute would be easy.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'John Neal', written in a cursive style.
