- Time management
- Health and Safety requirements
- CSCS card
- Risk assessment & mitigation
- Knowledge of CDM 2015 Reg.
- JCT & NEC Contracts knowledge
- Contract management
- HSE system expertise

Work history

Assistant Project manager,

Ashraya educational infrastructures services LLP -

12/2018 - 02/2022
HYDERABAD, INDIA

- Streamlined project execution by implementing comprehensive scheduling, budgeting, and resource allocation plans, ensuring projects met on-time delivery and strict budgetary constraints.
- Cultivated a collaborative environment by facilitating open communication channels across diverse project teams, fostering collaborative problem-solving strategies to drive successful project outcomes.
- Exemplified exceptional client service by proactively liaising with clients and stakeholders, consistently exceeding project requirements and client expectations through clear communication and proactive issue resolution.
- Optimized project delivery efficiency by effectively coordinating with trades, direct labor, and material suppliers, ensuring projects consistently met program schedules, rigorous quality standards, and predefined cost targets.
- Empowered a high-performing workforce by delivering comprehensive safety inductions and engaging toolbox talks, fostering a culture of exceptional safety and maximized team productivity.

Project Engineer

Modi Builders -

07/2015 - 12/2018
HYDERABAD, INDIA

- Spearheaded site assessments through research, surveys, and inspections, identifying opportunities to improve construction plans and enhance project efficiency.
- Delivered comprehensive safety briefings and implemented new team member induction programs, demonstrably reducing on-site risks and fostering a culture of safety.
- Conducted pre-construction surveys to streamline construction processes, expediting project timelines and maximizing resource utilization.
- Orchestrated and managed all construction phases, encompassing design, procurement, construction, commissioning, and handover, ensuring project success.
- Proactively communicated project status, risks, and issues to construction project managers and stakeholders, facilitating informed decision-making.

Site Engineer,
Hindustan Concrete Blocks Pvt Ltd -

04/2014 - 06/2015
HYDERABAD, INDIA

- Performed meticulous leveling throughout construction to ensure level and stable foundations, minimizing structural risks.
- Facilitated seamless collaboration with construction teams to interpret and implement civil and mechanical project drawings, ensuring strict adherence to design specifications.
- Championed rigorous quality control by enforcing strict adherence to design standards through extensive quality monitoring, guaranteeing projects met design expectation.
- Reduced site accidents by zero-incident safety culture on construction sites by rigorously enforcing health and safety legislation and implementing innovative safety protocols.
