Story Homes

Dear Sir/Madam

I would like to apply for the role of **Site Technician – South Lakes** advertised in the Careers section on your website. Please find attached my CV as requested.

I am looking to return to employed work after a period of self-employment to achieve financial security and would like to remain in the construction industry. I feel working for a company with an excellent reputation such as Story Homes would be a positive move as I have very high standards in finishing off work having been shortlisted for an LABC Building Excellence Award for Best High Volume New Housing Development in 2018 with Russell Armer Ltd as the site manager for the development.

I decided to return to my original trade in joinery as I enjoy being given a challenge and being able to control the standard of workmanship, ensuring completion to the highest standards possible. I enjoy working with people who have creative ideas, giving them advice on how best to achieve their vision of the work they want doing. This shows I am good at communication and have good organisational skills, liaising with customers, arranging appointments and keeping to deadlines.

Being self employed I can be contacted any time on 07788 560065.

I look forward to hearing from you.

Yours faithfully

Paul Colman
