LUXURY
WATERSIDE
LIVING

Waterside offers a superb collection of houses and apartments in a beautiful setting with some offering lovely views over the canal.

Waterside perfectly demonstrates Story Homes' exceptional attention to detail, both in building in places where people want to live and creating homes you are proud to call your own. Careful consideration has been given to the diverse range of house types, which have been designed to meet the needs of modern living.

A mix of stone, brick and render have been used here to give each home its individual personality, while blending perfectly into the local area. All in all these homes offer superb spaces and generous accommodation for families to grow, and are an ideal choice for those who are looking for a stylishly appointed new home in the sought after Cottam area.

A 4-bed detached Victorian house with some modern improvements has average yearly energy costs of £2,460. Whereas, the equivalent new build home that has been built to 2013 Building Regulations could have average yearly energy costs of £1,050, saving £1,410 per annum. SOURCE: new-homes.co.uk

Properties at Waterside exhibit enhanced energy ratings through the use of thermally efficient build materials which, together with inset photovoltaic roof panels (included throughout as standard at no extra cost), provide electricity generation to off-set usage and benefit from national feed in tariffs; combine to give you reduced energy bills. As well as using less energy, these properties produce significantly lower CO2 emissions too*.
