Sustainable living...

Story Homes is committed to reducing energy, water and waste in the homes we build, on our construction sites and in our offices.

As well as being sustainable, our homes could save you money and you'll be helping the environment as a new build property is greener and more economical to run than an older property as it uses less energy and produces significantly lower CO2 emissions.

Each home at Paddocks View is installed with a smart meter, allowing you to analyse your energy consumption. Together with water saving appliances, thermally efficient building materials and an airtight design, the overall energy demands of our houses are reduced - in fact a new home could save you up to £1,410 per year.*

The benefits of a new home could include lower running costs:

- 'A' rated kitchen appliances
- 4/2.6 litre dual flush toilets
- All homes have 100% energy efficient lighting.

We create sustainable communities ensuring:

- Close proximity to essential amenities including schools, parks and shops
- Good access to public transport
- Streets that are pedestrian, cyclist and car friendly
- Safe public spaces and pedestrian routes^.

*A 4-bed detached Victorian house with some modern improvements has average yearly energy costs of £2,460. Whereas, the equivalent new build home that has been built to 2013 Building Regulations could have average yearly energy costs of £1,050, saving £1,410 per annum. SOURCE: new-homes.co.uk

^Our rear gardens are safe and secure for families to play in and the majority have a 1.8m high boundary fence/wall. We also incorporate cul de sacs into our developments to reduce traffic speeds.

**A RELAXED PACE OF LIFE THAT
COULD SAVE YOU MONEY AS WELL AS
LOOKING AFTER THE ENVIRONMENT***
