Exceptional CUSTOMER CARE

YOU'D EXPECT NOTHING LESS FROM A 5 STAR
AWARD WINNING BUILDER, AN ACCOLADE
STORY HOMES IS PROUD TO HAVE HELD FOR
THREE YEARS

For the third year running Story Homes has secured a top '5 Star' rating in the house building industry's annual customer satisfaction survey, achieving higher ratings than many of our competitors.

A 5 star rating is judged upon results from our customers and we regularly receive fantastic feedback from them which we review and use to help us make continuous improvements to our homes and our after sales service. We are proud that this has been

recognised by the national house building industry and highlights that we continue to offer our customers the highest level of customer service.

In a separate independent customer survey by 'In-house', Story Homes attracted both an outstanding and a gold award for customer satisfaction, revealing that 96% of our buyers are satisfied with the overall quality of their home and would recommend us to a friend.

The Consumer Code for Home Builders was developed by the home-building industry and introduced in April 2010 to make the home buying process fairer and more transparent for purchasers.

Sustainable CREDENTIALS

WHILST ALSO SAVING YOU MONEY, A NEW PROPERTY IS MUCH MORE FOCUSED ON CARING FOR THE ENVIRONMENT

Renowned for our quality and high specification, we employ traditional build techniques, whilst equipping your home for 21st century modern living. Not only is your property designed and built to exacting standards but the level of care and finish is very much evident with a Story Home. It goes without saying that we use quality materials throughout.

And we don't just focus on the aesthetics, we use high security doors with multi-point locking, and all of our properties are built with energy efficiency in mind which gives lower running costs, saving up to £1,410 pa on a 4-bed detached new build property*.

As well as being sustainable our homes allow owners to analyse their energy consumption. Each home at Dovecote Place is installed with a smart meter, and together with efficient water use appliances, thermally efficient building materials and an air tight design, the overall energy demands of our houses are reduced.

We are continually evolving our environmental policies and as well as recycling a high percentage of waste generated on site, we've planted hundreds of trees - as well as safeguarding hundreds of others too!

The benefits of a new home include lower running costs:

- 'A' rated kitchen appliances
- 4/2.6 litre dual flush toilets
- 100% of homes fitted with energy efficient lighting.

We create sustainable communities ensuring:

- Close proximity to essential amenities including schools, parks and shops
- Good access to public transport
- Streets that are pedestrian, cyclist and car friendly
- Safe public spaces and pedestrian routes^.

*A 4-bed detached Victorian house with some modern improvements has average yearly energy costs of £2,460. Whereas, the equivalent new build home that has been built to 2013 Building Regulations could have average yearly energy costs of £1,050, saving £1,410 per annum. SOURCE: new-homes.co.uk
